Sir:

**REPLY BRIEF**

In response to the Examiner's Answer dated January 12, 2006, Appellant makes the following reply.

First, regarding the related appeals and interferences, Appellant confirms that there are no pending appeals or interferences which will directly affect or be directly affected by or have a bearing on decision in the pending appeal.

Second, regarding the Examiner's response to argument, there is little that can be added to the arguments set forth in Appellant's brief. Appellant emphasizes that there is no proof that the Lee patent discloses the calculation of coefficients of a DCT of length  $N$  directly from the coefficients of two DCTs of length  $N/2$ . The Examiner's contentions

and arguments to the contrary do not overcome this basic deficiency. The outstanding final rejections should be reversed.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
